EXPERIENCE

Engineering Manager 1, Company 1 Jan 2024 - Dec 2025
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 2, Company 2 Jan 2022 - Dec 2023
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 3, Company 3 Jan 2020 - Dec 2021
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 4, Company 4 Jan 2018 - Dec 2019
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 5, Company 5 Jan 2016 - Dec 2017
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)

- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 6, Company 6 Jan 2014 - Dec 2015
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 7, Company 7 Jan 2012 - Dec 2013
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)

- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 8, Company 8 Jan 2010 - Dec 2011
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 9, Company 9 Jan 2008 - Dec 2009
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)

- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 10, Company 10 Jan 2006 - Dec 2007
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 11, Company 11 Jan 2004 - Dec 2005
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)

- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

Engineering Manager 12, Company 12 Jan 2002 - Dec 2003
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 1)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 2)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 3)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 4)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 5)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 6)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 7)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 8)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 9)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 10)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 11)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 12)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 13)
- Delivered cross-functional initiatives spanning architecture reviews, capacity planning, incident response, mentoring, vendor evaluation, and quarterly roadmap alignment with product leadership. (item 14)

TECHNICAL SKILLS
Rust, C++, Distributed Systems, Kubernetes, Leadership
